

## SANDTA TREASURER'S Report

Financial statements audited by CoetzeeSmit were received just before the Congress in August and we are grateful for their swift audit of our finances 1 July 2013- 30 June 2014.

This year Sandta acquired 50 new members and a total of 44 members who had not paid their annual fees were removed from the books. Paid up members for the financial year totaled 494. All in all it was a good year for us, having budgeted for a loss with the expectation of utilizing excess funds. Despite the budgeted loss a profit of R8990 was made for the year.

A significant portion of the income arose from advertisements. The system of sms / email and website advertising for therapy -related jobs, courses and equipment is fast becoming popular amongst members and related organizations. This year advertisements generated R10 019 which surpassed what was budgeted and covered the expense of the WINSiM sms package.

Added to the income is R15 884 interest on the investment account which will be ploughed back into supporting members for CPD courses and research related to Bobath / NDT.

Expenses were within budget except for auditing fees which comprise additional fees for research into and application for tax exemption from SARS as a newly registered nonprofit organization. We are awaiting a response from SARS re this application and the result.

Financial support offered to members for CPD - courses, congresses etc and Bobath / NDT related research was limited as no more than one application was received during the financial year. Members are urged to utilize the guidelines for applications for these funds on the website as further funds have been made available for the next financial year.

I wish to thank our Chairperson, Dorothy and our office administrator, Marianne, for all the support and assistance over the year and I look forward to another successful year as Treasurer.

Carol Brenner
